I. General information

1. The Government of the Republic of Azerbaijan ensures the coexistence of Azerbaijanis and national minorities which have contributed to the formation of the Azerbaijani ethno genesis and provides equal rights based on law. Throughout the centuries, Azerbaijanis have lived together with different national minorities in peace and coexistence.

2. As it was noted in the previous report (CERD/C/AZE/6), the ongoing Armenian occupation of Nagorno-Karabakh and seven adjacent regions remain as the main obstacle to full and efficient implementation of this Convention. In this regard, four resolutions of the United Nations Security Council (822, 853, 874 and 884) have not been implemented yet. It is to be noted that the above mentioned resolutions reaffirm the territorial integrity and sovereignty of the Republic of Azerbaijan and demand the withdrawal of the occupying forces from the occupied territories.

3. As a result of the Armenian aggression policy, there are more than a million refugees and internally displaced persons in the Republic of Azerbaijan and this hampers the realization of the rights and main freedoms of these people. Measures are being undertaken constantly by the Government for improving the social welfare of this group of people.

4. The Republic of Azerbaijan acceded to the International Convention on the Elimination of All Forms of Racial Discrimination by its Law 95-IC, dated 31 May 1996.

5. The Committee on the Elimination of Racial Discrimination (hereafter the Committee) considered the combined initial and second periodic reports of the Republic of Azerbaijan (CERD/C/350/Add.1) on 18 and 19 August 1999, the combined third and fourth periodic reports (CERD/C/440/Add.1) on 4 and 7 March 2005, and the combined fifth and sixth periodic reports (CERD/C/AZE/6) on 11 and 12 August 2009. The concluding observations on that periodic report (CERD/C/AZE/CO/6) were adopted on 26 August 2009 at the 1968th meeting of the Committee.

6. The present report contains the combined seventh, eighth and ninth periodic reports of the Republic of Azerbaijan and has been elaborated in line with the general guidelines regarding the form and content of report to be submitted by States under article 9, paragraph 1, of the International Convention on the Elimination of All Forms of Racial Discrimination. This report covers the period following the submission by the Government of Azerbaijan of its fifth and sixth periodic reports (2009-2013). The final review of the Committee was taken into consideration in the preparation of this report.

7. This report has been drafted by the working group established pursuant to the Order of the President of the Republic of Azerbaijan No. 2963, dated 24 June 2013. Eighteen State bodies were represented in this working group. In accordance with paragraph 2 of the aforementioned Order, this report was drafted in cooperation with civil society institutions.

The aim of the Azerbaijani State is to sustain the environment in which every individual can enjoy the equal rights and bear equal responsibilities regardless of their race, belief, ethnic origin or any other conditions. Furthermore, as it is stated in Article 25 of the Constitution of the Republic of Azerbaijan, the State of Azerbaijan guarantees the equality of rights and main freedoms of everyone regardless of race, nationality, religion, language, sex, origin, financial position, official position, faith or affiliation with any public unions.

9. It is to be noted that since the submission of the joint fifth and sixth periodic reports of the Republic of Azerbaijan, several legislative acts and other measures have been undertaken for further efficient implementation of the International Convention on the Elimination of All Forms of Racial Discrimination and as a result of these measures progress has been achieved.

10. “National Action Program of the Republic of Azerbaijan on increasing the efficiency in the protection of human rights and freedom” has been approved with the Order of the President of the Republic of Azerbaijan dated 27 December 2011. The National Action Program has defined the measures on improvement of normative legal basis and the activity of State bodies and protection of rights of different groups of people, etc. Thus, paragraph 1.1 and 1.2 of the National Action Program must be specially underlined which are essential for more efficient national legislative protection of the rights enshrined in the International Convention on the Elimination of All Forms of Racial Discrimination. The paragraph 1.1 of the Program confirmed that laws of the Republic of Azerbaijan while drafting shall be guided with the main criteria of human rights and freedoms secured in the Constitution of the Republic of Azerbaijan and the international treaties to which Azerbaijan is a party. The paragraph 1.2 of the National Action Program reaffirmed the implementation of the commitments and obligations arising from the international treaties on human rights and freedoms to which the Republic of Azerbaijan is a party and ensuring compliance of regulatory and legal acts of the Republic of Azerbaijan with international legal instruments. Issues related to the realization of the above-mentioned provision have been entrusted to the Cabinet of Ministers of the Republic of Azerbaijan, Administration of the President of the Republic of Azerbaijan, Milli Mejlis of the Republic of Azerbaijan, Ministries of Justice and Foreign Affairs of the Republic of Azerbaijan, Scientific Research Institute for Human Rights of the Azerbaijan National Academy of Sciences.

11. In general, different provisions are enshrined in the National Action Program under such chapters as the protection of different groups of population, the improvement of the activities in the files of protection of human rights of different State organs, the conduct of trainings, scientific-research and enlightenment on human rights, cooperation with international organizations in the field of human rights, coordination, monitoring and assessment of the implementation of National Action Program.

There are more than 1800 mosques, 5 Orthodox churches, 1 Catholic churches, 1 Lutheran church, 2 Alban-Udi churches, 4 Georgian Orthodox churches, 6 synagogues in Azerbaijan.

14. The information on ethnic composition of the country’s population is obtained through the census data. With regard to paragraph 11 of the concluding observations of the Committee on submission of information on the results of the latest census data, it is to be noted that the latest population census was carried out by the State Statistical Committee on April 2009 based on order of the President of the Republic of Azerbaijan dated 7 June 2006. The people involved in population census indicated freely their ethnic origin or language. The State Statistical Committee held trainings on guidance of answers to the questions on the principle of voluntariness. The results of the census of population, held in compliance with the standards and recommendations of the United Nations Economic

Commission for Europe on census reflect the information on ethnic origin and language of the population. Meanwhile, the conduct of the census, covering the ethnic minorities, in line with international standards and the trainings held, had been reflected in the 3rd opinion of the Advisory Committee on the Framework Convention for the Protection of National Minorities. Foreigners and stateless persons also participated in the population census.

20. Regarding the recommendation reflected in paragraph 8 of the concluding observations, to “fully implement all anti-discrimination policies that have been adopted, to closely monitor and evaluate progress in implementation of the Convention at national and local levels” it is to be noted that the National Action Program, adopted for the provision of persistence of the measures realized in the field of human rights, defines the courses for more efficient promotion and protection of the rights of different groups of population. The implementation of the National Action Program has been assigned to relevant State organs. According to paragraph 6.1 of the National Action Program to control the implementation of it, the Working Group on coordination of the realization of the National Action Program consisting of the representatives of executive organs, reports to the President of the Republic of Azerbaijan on a regular basis. The Office of the Administration of the President of the Republic of Azerbaijan analyses the information submitted by the Working Group and presents proposals on the improvement of the implementation.

21. Regarding the legislative reforms in the sphere of the fight against corruption, it is to be noted that with the Law on amendments to the Criminal Code of the Republic of Azerbaijan, dated March 24, 2011, the concept of the “official” stipulated in Article 308 of the Criminal Code, has been broadened, the requirement of double criminality for corruption and other crimes against public service committed outside the territory of the Republic of Azerbaijan, as in other crimes has been eliminated.

22. Moreover, after the relevant amendments made in the disposition part of the articles on criminal responsibility for taking bribe, bribery and traffic of influence of the Criminal Code, unlike the previous edition, actions like “Offer or promise, receive an offer or promise” related to bribe have also been criminalized.

23. Regarding the paragraph 8 of the final review on complete implementation of policy on prohibition of discrimination, it should be noted that for the purpose of improving the work of public authorities in accordance with modern standards “the National Strategy for increasing transparency and fight against corruption” had been implemented during the 2007-2011.

24. For the purpose of providing continuity of measures taken in the field of fight against corruption, increasing transparency in the work of public authorities, and managerial organization in accordance with international standards in the Republic of Azerbaijan, the National Action Plans on Open Government and Fight against Corruption (for 2012-2015) were adopted by Presidential Order of 5 September 2012.

In realization of National Action Plans on “The promotion of open government” approved with the Order of the President of the Republic of Azerbaijan No. 2421 dated 2 September 2012 and on “Fight against corruption for the years of 2012–2015”, during 2013, the governing body of the Ministry for Interior and its structural departments received more than 5000 citizens, including 476 citizens from 64 cities and districts of the country. The Ministry for Interior considered approximately 45000 applications, out of which 11000 were taken under control. All the applications have been comprehensively and

promptly investigated, substantial written responses have been sent to applicants and their rights have been explained.

26. Necessary technical safety measures were taken for protection of operations conducted on the 24 electronic service as well as private information; and “Electronic Payment System” was established for making timely payment for penalties and other payments in the electronic form through the Centralized Information System on Mass Payments of the Central Bank. “Administrative standing orders for receiving applications and documents for recruitment to the internal affairs authorities” were approved and registered by the Ministry of Justice with regard to improvement of mechanisms on recruitment of police employees by competition and based on the principle of transparency.

27. In early 2009, single database was established and started functioning for the purpose of registration of information on crimes of corruption, persons committing them and investigation of this kind of criminal cases and results of court proceedings.

28. To improve the process of consideration of complaints of citizens encountered corruption, as well as to ensure the direct and free of charge appeal, “161” “Hot line” contact centre was established on March 03, 2011 under the Anti-Corruption Department of the Office of the General Prosecutor.

30. In 2011 in the frame of the project to facilitate the access of people to the courts, a single Internet portal of the judicial system, which contains information about all the courts and judges, has been launched (www.courts.az). Through the portal it is possible to obtain detailed information about courts, judges, the activity of courts, the cases under consideration, and judgments, documents necessary to appeal etc., receive forms of statements of claim and samples of other court documents, as well as apply online and get an answer. In addition, information source of the cases under consideration and final judicial acts of courts will also be posted on the portal, which is currently under reconstruction.

31. At the same time, in accordance with “the State Program on the Development of Azerbaijani Justice System for the 2009-2013 period” adopted by the 6 February 2009 Presidential Decree, purposeful actions were taken in the fields of modernization of the justice and judicial infrastructures, strengthening of the provision of technical equipment, application of new technologies, facilitation of request filing for citizens, and in other fields. As of now, the Draft State Program for the 2014-2020 is being elaborated.

32. With regard to paragraph 9 of the final review on the reasons of small number of complaints of racial discrimination it should be noted that this should not be seen as or evaluated as lack of effective means of law enforcement resources, lack of awareness of the public about their rights, existence of fear of retaliation, distrust in law enforcement authorities, as well as negligence or insensitive approach of those authorities towards cases of discrimination. On the contrary, this data proves that such cases are not typical for Azerbaijan, which is a tolerant country. Also, it is the result of preventive work and legal awareness raising campaigns. During 6 months of 2009-2013 the Ministry of Justice arranged over 10400 legal awareness raising events, speeches were made on media, articles were published, and various events were attended.

33. The legislation prohibits any distinction or discrimination among the citizens or ethnic minorities living the Republic of Azerbaijan. Regarding the allegations on non-initiation of criminal cases by the law enforcement agencies on alleged hostility cases, it is to be noted that relevant grounds and reasons for the initiation of criminal persecution should exist. According to Article 46.2 of the Criminal Procedural Code of the Republic of Azerbaijan the cause to begin criminal case could be application submitted by an individual, information of legal person (State official) or mass media, or revelation of this information directly by interrogator, investigator or public prosecutor on committed or prepared crime.

The criminal and criminal procedural legislation of the Republic of Azerbaijan applies equally in the whole territory of the Republic of Azerbaijan and to the citizens of the Republic of Azerbaijan as well as foreigners residing in the territory of the Republic of Azerbaijan and to stateless persons. All the representatives of local ethnic minorities living in the territory of the Republic of Azerbaijan, as well as ethnic Armenians are citizens of the Republic of Azerbaijan and the law prohibits discrimination against or granting any privileges.

37. Regarding the groundless allegations reflected in the relevant paragraph of the final review, it is to be noted that the very allegations prejudice the liberation of territories of the Republic of Azerbaijan occupied by Armenia, as well as the return of refugees and internally displaced persons to their homeland.

38. Regarding the recommendation reflected in paragraph 18 of the final review on “ratifying those international human rights treaties which have not yet been ratified in particular treaties the provision of which have a direct bearing on the subject of racial discrimination”, it is to be noted that recently the Republic of Azerbaijan has acceded to the Optional Protocol to the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (29 January 2009), the Convention on the Protection and Promotion of the Diversity of Cultural Expressions of the United Nations Educational, Scientific and Cultural Organization (UNESCO), the Council of Europe Convention on Action against Trafficking in Human Beings (11 May 2010), International Labour Organization (ILO) Convention concerning Equal Opportunities and Equal Treatment for Men and Women Workers: Workers with Family Responsibilities, 1981 (No. 156) (11 May 2010), ILO Convention concerning the revision of the Maternity Protection Convention (Revised), 1952, 2000 (No. 183) (11 May 2010).

39. The Government of the Republic of Azerbaijan supports the implementation of projects of civil society institutions to combat racial discrimination and strengthen mutual

understanding. Since its fifth and sixth periodic reports, the Government has funded numerous events and projects on protection of rights of refugees, internally displaced persons, persons with disabilities and ethnic minorities, eradication of discrimination against them, enlighten these groups of peoples on their rights. Upon receiving the request for extradition, the information about the requesting country, as well as the facts on existing cases of torture or cruel treatment is looked into, also reports and opinions of the international organizations on international legal protection are studied. The court on felonies considers and decides on the issue of extradition in the collegial composition and the very decision of the court can be appealed in a manner envisaged in the legislation. In the very situation, the issue of provision of person with the right to protection receives special consideration.

Political rights

67. According to Article 3 of the Election Code, all citizens of the Republic of Azerbaijan have a right to vote, to be elected, and participate in referendums regardless of their race, nationality, religion, language, gender, background, or any other factors listed in the Law.

68. In accordance with Article 6 of the Law on Local Polls it is forbidden to limit direct or indirect participation of citizens in local polls on the grounds listed in the above-mentioned paragraph.

69. Voting rights of foreigners and stateless persons are reflected in the Election Code of the Republic of Azerbaijan. According to the Part 3 of the Article 12 of the Election Code citizens of foreign countries residing in the territory of relevant municipality for not less than 5 years can participate in voting of municipal elections (with the condition that the country of citizenship of the very foreigner provides the same rights for foreigners during the voting for municipal elections).

70. Pursuant to the Article 88.2 of the Election Code, in compliance with the Criminal Code of the Republic of Azerbaijan, during a pre-election campaign it shall be prohibited to abuse the mass media for campaigns, which incite social, racial, national or religious hatred and hostility. Generally, there was not any racial limitation for different election actors in the elections conducted so far in the Republic of Azerbaijan.

71. The Law of the Republic of Azerbaijan dated April 20, 2012 on “Amendments to the Law on “Political parties” prohibits the restriction of membership to political party on the grounds of profession, race, sex, ethnicity and religion, as well as establishment and operation of political parties aiming of or directed at the change of the constitutional structure of the Republic of Azerbaijan, its secular character by using force, violation of its territorial integrity, propagation of war, violence and cruelty or incitement of racial, national and religious hostility.

72. In the paragraph 12 of the final review it is recommended to promote representation of the various ethnic groups in the parliament and other elected and public bodies. With regard to the very recommendation it is to be noted that citizens have the right to be hired for public service regardless of their race, nationality, religion, language or any other factors. Article 27 of the Law on Public Service and the Article 4 of the Law on Service in the Justice System stipulate the right of professionally qualified citizens who are fluent in Azerbaijani to be hired regardless of their race, nationality, religion, language, gender, social background, property status, place of residence, faith, belonging to any social or other unions.

75. As it has been previously noted, the freedom of religion is protected with the Constitution of the Republic of Azerbaijan. During the reporting period, provisions on prohibition of propagation aimed at creating racial, national, religious, social hostility and enmity by using force or by threatening to use force for the religious belief or religious life style, have been added to the Law of the Republic of Azerbaijan on “Freedom of religious belief” with Law on amendments and changes to the law “Freedom of religious belief” adopted on 8 May 2009. Furthermore, the Article 12.1 of the very Law refers religious propaganda aimed at creating racial, national, religious, social hostility and enmity, forced expression (demonstration) of religious belief, applying force to conduct religious ceremonies or participate at religious ceremonies, dissemination and propaganda of religion (religious movement) degrading dignity or contrary to the principles of humanity as the conditions laying grounds for the abolishment of the religious organization based on court decision.

76. According to the paragraph 14.2 of the “Instructions on rules for issuance of license for establishment of the specialized sale stations for the sale of religious literature, things and other information materials with religious content” approved by Order No. 10 dated October 21, 2009 of the State Committee for Work with Religious Organizations of the Republic of Azerbaijan, if in the religious literature, things and other information materials with religious content sold in the specialized sale stations there is information on application of use of force for religious belief and religious life style, including the information leading to establishment of racial, national, religious, social hostility and enmity, the State Committee for Work with Religious Organizations may revoke the very license.

77. According to the paragraph 12.3 of the “Instructions on issuance of opinion on advisability of construction of religious place of worship and reconstruction (renewal,

capital repair) of the existing religious place of worship” approved by order of the said Committee on January 28, 2010, if construction of religious place of worship and reconstruction (renewal, capital repair) of the existing religious place of worship is likely to create racial, national, religious, social hostility or enmity, issuing positive opinion on advisability of construction of religious place of worship and reconstruction (renewal, capital repair) of the existing religious place of worship may be rejected by State Committee for Work with Religious Organizations of the Republic of Azerbaijan.

78. Regarding the paragraph 10 of the final review on abuse of provisions of the Criminal Code on defamation, insult and the incitement to racial, national and religious hatred for the arrest of several journalists it is to be noted that nobody in the Republic of Azerbaijan, including the journalists, either can be illegally arrested irrespective of race, nationality, religion, language, sex, origin, financial situation, service position, faith and affiliation with public unions or subjected to physical or psychological pressures. Thus, according to the national legislation mass media as well as internet is free, though this freedom must not lead to the abuse or misuse the mass media for gossips, false and biased articles insulting the honor and dignity of citizens under the pretext of reliable source, slander or commission of any unlawful acts.

79. In the meantime, it is to be noted that no media worker had been convicted on the Articles 147 (defamation) and 148 (insult) of the Criminal Code in 2011. Only one person was convicted to fine based on Article 147 in 2012. During the reporting period only one person was convicted on Article 283 (provocation for national, racial, social or religious hatred or hostility).

80. The paragraph 1.2.7 of the “National Action Program of the Republic of Azerbaijan on increasing the efficiency in the protection of human rights and freedom” refers to the issue of improvement of the national legislation for eradication of criminal responsibility for defamation. For this very purpose, in 2012 Azerbaijan appealed to the Venice Commission for assistance in the elaboration of the draft law on defamation and relevant work has been started jointly with experts of the Commission. The delegation of the Venice Commission visited Azerbaijan on April 2013, and relevant meetings were held for elaboration of the draft law. The draft law envisages the application of principles imprinted in the precedent law of the European Court of Human Rights in the consideration of cases submitted to courts.

81. The Plenum of the Supreme Court of the Republic of Azerbaijan adopted on 21st of February 2014 the decision on the court practice of the consideration of the cases with special persecutions.

82. According to the aforementioned decision, the analysis of the cases on defamation and slander with special persecution, considered in the courts of the Republic of Azerbaijan during 2012-2013, indicates that 249 complaint communications against 401 persons have been lodged during the mentioned period. 44 of the complaint communications (10.9 percent) were against journalists though no journalist had been convicted during the said period. Thus, one journalist was justified, the execution of 10 cases with special persecution was dropped, and the execution and court consideration was rejected in relation to 33 out of these cases.

83. The Plenum has emphasized that the precedent law places utmost importance to the freedom of speech for the maintenance of the democratic system.

84. Nevertheless, according to Article 10.2 of the European Convention for the Protection of Human Rights and Fundamental Freedoms, freedom of expression may be subject to restrictions for the protection of the reputation or rights of others.

85. The decisions of the European Court of Human Rights have affirmed that the “necessity” for any restriction on freedom of expression must be convincingly established. In the first place the courts must assess whether there is a “pressing social need” for the restriction and, in making their assessment, they enjoy a certain margin of appreciation. In consideration of cases on the freedom of press, the national margin of appreciation is circumscribed by the interest of democratic society in ensuring and maintaining a free press. Similarly, that interest will weigh heavily in the balance in determining, as must be done under paragraph 2 of Article 10, whether the restriction was proportionate to the legitimate aim pursued (see, para. 45 of Case of *Fressoz and Roire v. France*).

86. The European Court has also mentioned that public-watchdog role of the press is a vital element in the democratic society (see para. 39, Case of *Goodwin v. The United Kingdom*, 27 March 1996). Its duty is to impart in a manner consistent with its obligations and responsibilities — information and ideas on all matters of public interest (see para. 37 Case of *de Haas and Gijssels v. Belgium* and para. 55 Case of *Colombani and others v. France*). But the press must not overstep the bounds set, inter alia, for “the protection of the reputation of others”.

87. The Plenum has further explained that in accordance with the case law of the European Court a careful distinction needs to be made between facts and value judgments expressed in the information disseminated by the person charged with special persecution. The existence of facts can be demonstrated, whereas the truth of value judgments is not susceptible of proof. As regards value-judgments this requirement is impossible of fulfillment and it infringes freedom of opinion itself, which is a fundamental part of the right secured by Article 10 (Art. 10) of the Convention (see para. 42 Case of *de Haas and Gijssels v. Belgium* and para. 46 of Case of *Lingens v. Austria*). Meanwhile, it is difficult to define the difference between the facts and the judgments, when the pretensions are about the behavior of the third party. Since even a value judgment without any factual basis to support it may be excessive (see para. 43 Case of *Jerusalem v. Austria*).

88. The Plenum of the Supreme Court has recommended to the courts to give a careful consideration to the cases with special persecution to differentiate between whether the information is a slander or defamation or whether it is an intervention to the private or public life or political activity of the special persecutor. It should be taken into consideration that according to the precedent law of the European Court, the “duties and responsibilities” inherent in the exercise of the freedom of expression, the safeguard afforded by Article 10 to journalists in relation to reporting on issues of general interest is subject to the proviso that they are acting in good faith in order to provide accurate and reliable information in accordance with the ethics of journalism (see along with other sources para. 37 of case *Radio France and Others v. France*, para. 65 of the above mentioned *Colombani* case).

89. While it is the duty of the press to warn the public about the crimes allegedly committed by elected representatives or officials, the direct accusation of certain people by mentioning their names and positions, obliges journalists to present sufficient factual basis of the accusations (see, case of *Lesnik v. Slovakia*).

90. Also the court have been recommended to take into consideration the specificity and public dangerousness of the crime, the conditions specifying the personality of the accused person, mitigating or aggravating conditions of the crime, the importance of freedom of expression for the democratic society as well as the relevant precedent law of the European Court while deciding on punishments about the convicted on slander and defamation.

91. The European Court has emphasized that while deciding on the appropriateness of the intervention to the freedom of expression protected by Article 10 of the Convention, the character and seriousness of the punishments are “must” elements to be taken into

consideration (see along with other sources para. 37 case of *Ceylan v. Turkey* and paras. 41-42 case *Skalka v. Poland*).

92. Although States parties to the European Convention allow restrictions on the exercise of freedom of expression for the provision of relevant legal protection of reputation of a person and even in accordance with Article 8 of the Convention they are obliged to the realization of such measures in line with positive obligation in the very sphere (see para. 35 case of *Pfeifer v. Austria* and para. 57 case of *Von Hannover v. Germany*), this should not be done in a manner leading to the restrain the mass media to promptly inform the public on evident or alleged law breaches.

93. The European Court has mentioned that although sentencing is in principle a matter for the national courts, the imposition of a prison sentence for a press offence in exceptional circumstances may be compatible with journalists' freedom of expression as guaranteed by Article 10 of the Convention (see para. 115 case *Cumpana and Mazare v. Romania*).

94. The recommendations to national courts on the guarantee of the freedom of expression reflected in the decision of the Plenum of the Supreme Court are in line with the precedent law of the European Court.

95. Besides, the Plenum of the Supreme Court of the Republic of Azerbaijan adopted a decision on "Proposals on amendments to the Criminal Code to be submitted to Milli Mejlis of the Republic of Azerbaijan in line with the right of legislative initiative" on February 21, 2014.

96. The Plenum has mentioned that according to the case law of the European Court although sentencing is in principle a matter for the national courts, the imposition of a prison sentence for a press offence will be compatible with journalists' freedom of expression as guaranteed by Article 10 of the Convention only in exceptional circumstances, notably where other fundamental rights have been seriously impaired, as, for example, in the case of hate speech or incitement to violence (see para. 115 case *Cumpana and Mazare v. Romania*).

97. The sanctions parts of Articles 147.1 and 148 of the Criminal Code of the Republic of Azerbaijan stipulate along with other punishments the deprivation of liberty for the offences of slander and defamation.

98. The Plenum, guided by the position of the European Court on preference to punishments not related to deprivation of liberty for offences of slander and defamation and considering the punishment of fine to be most expedient for the crimes of slander and defamation, found important to submit proposals to Milli Mejlis on relevant amendments to the very article of the Criminal Code in line with the right of legislative initiative.

99. Besides, according to the Plenum, norms on responsibility for slander and defamation propagating hostility or violence on racial, national, religious or any public affiliation grounds, must be added to the criminal legislation and the draft law reflecting the above mentioned must be submitted to Milli Mejlis in line with the right of legislative initiative.

100. Hence, the Plenum of the Supreme Court decided on submission of proposals to Milli Mejlis on amendments to the Criminal Code of the Republic of Azerbaijan in line with the right of legislative initiative.

101. Meanwhile, during 2009–2013, 15 million manats was allotted to the provision of freedom of expression and 30 million manats to the strengthening of social protection of journalists from the State budget through the State Support Fund for Mass Media under the auspices of the President of the Republic of Azerbaijan.

The rights of foreigners and stateless persons

107. In accordance with the “Migration Code of the Republic of Azerbaijan” the permission card for temporary residence in the Republic of Azerbaijan is a document authorizing foreigners and stateless persons to reside in the Republic of Azerbaijan temporarily and exit from the Republic of Azerbaijan and return back to the Republic of Azerbaijan under visa-free basis during its validity period, and certifying the identities and registration of those persons upon the places of residence irrespective of race, nationality, religion, language, gender, skin color, national and ethnic origin. A temporary residence permit on the territory of the Republic of Azerbaijan is issued for the period mentioned on the application of the applicant, but for the duration not exceeding 1 year and can be extended each time for the period not exceeding 2 years, if there is a relevant basis.

108. Foreigners and stateless persons temporarily residing in the territory of the Republic of Azerbaijan at least for 2 years on grounds envisaged by relevant Articles of Migration Code can apply for obtaining permit for permanent residence in the territory of the Republic of Azerbaijan. Permission card for permanent residence in the Republic of Azerbaijan is a document authorizing foreigners and stateless persons to reside in the Republic of Azerbaijan permanently and exit from the Republic of Azerbaijan and return back to the Republic of Azerbaijan under visa-free basis during its validity period, and certifying the identities and registration of those persons upon the places of residence.

109. Confiscation of identification documents of foreigners and stateless persons, as well as restriction of their movement within the country are not envisaged by the national legislation.

110. At the same time, collection and storage of passports or other identification documents of employed foreigners and stateless persons by juridical persons, physical persons carrying out entrepreneurial activity without registering as a juridical person, as well as branches and representations of foreign juridical persons have been prohibited.

According to the Code persons collecting, storing and hiding passports or other identification documents of foreigners and stateless persons for the purpose of employment bear responsibility as envisaged in the Law. Illegally collecting or storing of citizen's identification document and passport as a deposit causes administrative responsibility in compliance with Article 332.1 of Administrative Offences Code of the Republic of Azerbaijan (Fine in the amount of 85-90 manats).

111. According to the Article 78 of the "Migration Code of the Republic of Azerbaijan" foreigners and stateless persons can be expelled from the territory of the Republic of Azerbaijan in the following cases:

113. The persons obtained refugee status in the Republic of Azerbaijan and their family members are provided with refugee cards in a defined form. Currently new samples of "Refugee card" and "Travel document" with electronic chips are being prepared for the movement of those persons beyond the territory of the country.

114. Refugees can acquire citizenship of the Republic of Azerbaijan in compliance with the Law on "Citizenship of the Republic of Azerbaijan". During the reporting period 2 of the persons with refugee status were accepted to citizenship of the Republic of Azerbaijan. It should be mentioned that some of the citizens of the Islamic Republic of Afghanistan residing in the territory of the country were accepted to citizenship of the Republic of Azerbaijan, the others were granted with permits in a way envisaged by the legislation. At present this process is on.

115. According to Article 11 of the Law on the status of refugees and internally displaced persons (displaced within the country), the rights of the persons submitted applications for refugee status like to reside temporarily in the territory of the Republic of Azerbaijan, to use services of translator free of charge, to use free of charge the residential area provided in temporary accommodation centre till the case on granting refugee status is processed but for not more than 3 months, to get temporary work, to get medical assistance, to freely practice his/her religion, to contact with the Representative of the Office of the United Nations High Commissioner for Refugees (UNHCR), etc. are ensured.

116. In case when foreigners and stateless persons arrived in the Republic of Azerbaijan with the intention to obtain refugee status do not have residential area, they are voluntarily placed in the building of the Detention Center for illegal Migrants of the State Migration

Service designated for asylum seekers. According to requirements of the legislation those persons can stay in Detention Center during the investigation period of their applications, meaning during 3 months.

117. Concluding marriage by the persons submitted application for refugee status or obtained refugee status in the Republic of Azerbaijan with the citizens of the Republic of Azerbaijan is ensured in accordance with the requirements of the legislation. There is no discrimination for persons concluding marriage on race, nationality, religion, affiliation to certain social group or political conviction. It should be mentioned that at present 14 refugees from various countries who are registered with the State Migration Service are married with citizens of the Republic of Azerbaijan.

118. Conditions for deprivation from refugee status, prohibition of sending, handing out or compulsorily returning to other country of refugees are reflected in the Law on “Status of refugees and IDPs (displaced within the country)”. According to Part 2 of Article 15 of the afore-mentioned Law, till the case of the person applied for obtaining refugee status is processed by the relevant executive authority (the State Migration Service), he/she cannot be sent, given or returned to the other State. According to Part 3 of that Article, decision on deprivation from refugee status, sending, giving or compulsorily returning the refugee, as well as the person who wants refugee status to another country is made by the court upon application of the relevant executive authority (the State Migration Service). According to Part 4 of Article 13 of the Law if another rule is not envisaged by the legislation, filing a complaint by the persons stops actions about the organization of sending that person from the territory of the Republic of Azerbaijan.

119. It should be mentioned that during the reporting period not a single data was recorded on expulsion from the territory of the country (during investigation period of application and till the decision is made about him/her) of the person whose application for obtaining refugee status has been registered.

120. During 2009–2013, 6 applicants were granted the refugee status (14 persons including family members) by the State Migration Service.

121. During 2009–2013, 6 applicants applied for obtaining the refugee status (14 persons including family members) were granted the refugee status because of threat of persecution and torture by government authorities in case returned to their country of origin. As to the data of 31 December 2013, currently 50 applicants (68 persons including family members) from various countries have been registered as refugees at the State Migration Service of the Republic of Azerbaijan.

122. The State Migration Service assists repatriation of asylum seekers to their country of origin, cooperates with UNHCR in the field of resettlement of refugees to third countries who are under the protection of UNHCR.

123. With regard to the recommendation reflected in the paragraph 5 of the final review on registration of Russian citizen from Chechnya to the places, it is to be noted that since the 90s of the last century registration, investigation of applications for obtaining refugee status of citizens of Russian Federation of Chechen origin and making decision on those persons have been carried out by UNHCR Representation in Azerbaijan and therefore those persons are registered with the aforementioned organization as refugees. During the past

years a part of citizens of Russian Federation of Chechen origin who are under the protection of UNHCR Representation in Azerbaijan have been resettled in third countries via UNHCR, the others await resettlement.

124. It is also to be noted that, alternative protection for the persons not recognized, as refugee is not envisaged by the national legislation of the Republic of Azerbaijan. But relevant conditions have been set for such persons to apply to UNHCR Representation in Azerbaijan at further stages and to use their protection. The Government of Azerbaijan does not expel foreigners and stateless persons under the protection of UNHCR Representation in Azerbaijan, as well as citizens of Russian Federation of Chechen origin from the territory of the country, demonstrates tolerant attitude to them, does not hinder them to choose place of residence and to reside.

The rights of the victims of human trafficking

125. With regard to the paragraph 7 of the concluding observation recommending “to effectively implement the National Plan of Action to Combat Trafficking in persons and to ensure that the Law on Combating Trafficking in Persons is fully enforced and that, perpetrators are effectively prosecuted and punished” it should be stressed that the issues like the increasing efficiency of activity, protection and social rehabilitation of victims, implementation of cooperation and enlightenment measures are kept under strict control in compliance with the “National Action Plan on combating trafficking in human beings for 2009-2013”. Normative documents regulating activity of the shelter for victims of human trafficking, social rehabilitation of victims and immediate handover of them to police stations without any obstacles as well as Charter of “Hot line”, “Regulations on the Assistance Fund to Victims”, “Rules for the National Referral Mechanism”, “Rules (indicators) for Identification of Victims” and “Rules for placing and keeping children victims of human trafficking in the shelter” have been approved by the Government.

126. As a follow-up of measures taken in the sphere of the fight against human trafficking “Action plan on fight against human trafficking, forced labor, as well as prevention of such cases, elimination of its results” was approved in August of 2013 jointly with Ministry of Internal Affairs of the Republic of Azerbaijan, the State Migration Service of the Republic of Azerbaijan and Ministry of Labor and Social Protection of Population of the Republic of Azerbaijan and necessary measures are being taken in this regard.

127. Meanwhile, the Memorandum of Understanding for cooperation was signed between the Ministry of Internal Affairs and Coalition of Non-Governmental Organizations against human trafficking involving 45 non-governmental organizations and one of the priority directions of the National Action Plan — Special Working Program on joint implementation of enlightening measures, was developed and started to be executed. Meetings were regularly held between the Coalition and representatives of the State authorities, members of the Working Group under the National Coordinator on combating human trafficking and discussions were held on issues like the current state of struggle against human trafficking, protection of victims, implementation of the New National Action Plan, expanding cooperation with non-governmental organizations and other matters.

128. Along with the above-mentioned, two grant agreements for 2011-2013 were concluded with the United States Agency for International Development (USAID) and the Organization for Security and Cooperation in Europe (OSCE) for governmental and non-governmental organizations of Azerbaijan Republic on rendering assistance to victims and supporting justice, as well.

129. One of the main achievements attained in this direction was accession of our country to the Council of Europe Convention on Action against Trafficking in Human Beings in

2010. For the purpose of studying international practice on implementation and application of the Convention, workshops were held in Baku in 2010 and 2011, by joint organization of the Ministry of Internal Affairs and the Council of Europe Information Society and Action against Crime Directorate, with participation of experts of European countries.

130. Additionally, several events were organized together with the relevant State authorities for improvement of the legislation on combating human trafficking in compliance with the Convention. Amendments were made to the Law of the Republic of Azerbaijan on “Combating Human Trafficking” and Criminal Code taking into consideration the recommendations of the international organizations.

131. “Rules for Repatriation of Victims of Human Trafficking” were adopted by the relevant decision of the Cabinet of Ministers of Azerbaijan Republic.

132. Besides this, Decision of the Cabinet of Ministers on the Program for elimination of social problems which create circumstances for human trafficking was adopted on 20 May 2011 and with the Decision dated 3 August 2012, the compensation to be granted to person for the reintegration period was increased to 400 Manats.

133. At the same time, on 19 April 2013 new Article 14.1 entitled “Rehabilitation and time for deliberation” was added to the Law on combat against human trafficking. According to this Article, the victim of the human trafficking is entitled to 30 days of rehabilitation and deliberation period to restore his or her situation, evade from the influence of the criminals, and render well-considered decision regarding the cooperation with criminal prosecution organs. The victim of human trafficking may enjoy the provision with security and defense measures, as well as the services of special institutions for physical, psychological and social rehabilitation. The victim is not deported from the Republic of Azerbaijan during the period of rehabilitation and deliberation.

134. Regarding the statistical data on communications addressed by victims of human trafficking, it is to be noted that in 2011, there were 29 communications addressed by the victims of human trafficking, 17 criminal investigations were conducted on the very communications, out of which 12 were submitted to the court. 20 accused persons (2 men, 18 women) were convicted, 29 victims of human trafficking (1 man, 28 women) were identified and all of them are the citizens of the Republic of Azerbaijan. 2 persons of the accused persons were 18-25 years old, 1 of them was 25-35 years old, 17 of them were elder than 35, 1 of the victims was underage, 5 of them were 18-25 years old, 18 of them were 25-35 years old and 5 was elder than 35.
